JUST A SIMPLE COUNTER...

TRY ME!

# It's here!
The best useless button you've always dreamed of!
# In fact, you can:

1 Increment or decrement the counter value by using "+" or "-"

2 Add your favourite numbers to the list & enjoy watching it!

3 That's it...

Let yourself be hypnotized by this astonishing UI!!

Just a simple counter:

- 0 +

Add to list

Your numbers will be added here...

OMG!

It's keyboard reactive!!

Exactly my friend! Exactly!
What if, not only you can waste your time by trying this button but
you can also do it in multiple ways!
Amazing, huh?

+ , **↑** , **→**   Increment counter value

- , **↓** , **←**   Decrement counter value

↵   Add the value to the list

AND...CUT!

I would like to put something else in here but there's really nothing else to say...
